COMMENTS ON THE DIRECTORY

Be sure to read the General Information and the State Telephone Dialing Instruction sections as there have been a few changes made to the State Telephone System this year.

The State Agency Index lists agencies generally to the bureau level for all departments located in Helena. Major institutions or agencies headquartered outside of Helena are also listed.

The State Agency Organizational Listing is separated into two parts — Helena Agencies and Outside Helena Agencies. Departments are presented in alphabetical order with their organizational breakdowns shown generally to the section level.

The Helena Employee Listing is as accurate as possible at the time of printing. However, because of the relatively large number of personnel changes in some areas this section may become out-of-date quite rapidly. Please notify the Chief Operator (449-3406) of any errors, omitted names or names that should be deleted.

The Helena Agency Location section lists in its index all offices outside the Capitol Complex with building numbers and map coordinates for use with the maps of Helena.

In order to keep the directory a useful tool and as accurate as possible your help is needed. Notify the Communications Division (449-2586) or the Chief Operator (449-3406) of any changes or corrections. Thank you.

Directories can be purchased from the Communications Division, Box 195 Capitol Station, Helena, Montana 59601, at a nominal charge to recover printing costs.

GENERAL INFORMATION

STATE TELEPHONE SYSTEM

The State Telephone System (STS) is a statewide network of over 140 interconnected Tie Line and WATS circuits. The Tie Lines are individual circuit groups between fourteen major cities and Helena which serves as the switching center. Each outlying city or circuit group has a unique access code for calling. The WATS circuits are long distance circuits originating in Helena to serve all areas of the State not connected by Tie Lines. All WATS circuits have a single access code.

Proper dialing is of the utmost importance to ensure the most effective use of the STS. Read the STS dialing instructions on page 2 and if you have any questions or would like more information on the STS, call the Communications Division at 449-2586.

STATE TELEPHONE SYSTEM USAGE CHARGES

With the advent of the new Telephone Accounting System (TAS) equipment all STS usage is measured and agencies billed for all calls placed over the Tie Lines and WATS circuits during the business day. All calls are billed at nine cents per minute to the nearest tenth of a minute.

For every call placed over the STS the TAS equipment logs the station making the call, the date, time of day, number dialed and length of the call. This information is processed each month with the State's computer and several TAS computer reports accompany the monthly invoice for telephone services. For more information on the TAS, see MAM section 1-0905-30 or contact the Communications Division.

PERSONAL STATE TELEPHONE USE

State telephones and the State Telephone System (STS) are provided for the conduct of State business. As explained in the above section, agencies are now billed for each and every call placed over the STS during regular State business hours and consequently, personal or non-State business calls must be eliminated. Agencies will formulate or adopt policies to control the use of State telephones and to ensure that the following regulations are met.

- Personal or non-State business calls will not be made over the STS during regular State business hours.
- Personal or non-State long distance calls will not be made from State Telephones at any time unless arrangements are made with the telephone company operator at the time the call is placed to have the call billed to the caller's home telephone or credit card, or to place the call collect.
- Agencies will ensure the employees' personal calls, both incoming and outgoing, do not interfere with the conduct of State business.

ORDERING STATE TELEPHONE SYSTEM SERVICES

All requests for installation, modification, relocation or removal of STS telephone equipment and services must be submitted on a Telephone Service Request, Form CD-100, as outlined MAM Section 1-0905-20. The Telephone Service Request is available from General Services Division, Sam W. Mitchell Building, Helena 59601, 449-3060.

The Telephone Service Request form is essential. To save time, be sure to complete the form for all new orders or modifications to STS service and forward to the Communications Division well in advance of the desired service.

TROUBLE REPORTING

Report all trouble conditions to the Chief Operator, 449-3406. Remember, trouble conditions not reported cannot be corrected.

STATE TELEPHONE DIALING INSTRUCTIONS

- HELENA USERS ONLY -

(All outside Helena users must prefix all dialing with "8")

TYPE OF CALL	*DIAL*
HELENA CENTREX CALL	4 Digit State Ext. No.
HELENA LOCAL CALL	9 + 7 Digit Local No.
TIE LINE CALL	
State Number	Access Code* + State Ext. No.
Local Number	Access Code* + 9* + 7 Digit No.

NOTE: To call a telephone number in any one of the Tie Line cities listed below you must dial the appropriate access code for that city. WATS calls cannot be placed to any Tie Line city.

ACCESS CODES

ANACONDA Opportunity	129
BILLINGS Shepherd	122
BOULDER	128
BOZEMAN Amsterdam, Belgrade, Big Sky, Gallatin Gateway, Manhattan, Three Forks	126
BUTTE	123
DEER LODGE	127
DILLON	134
GREAT FALLS Ulm, Vaughn	124
HAVRE	135
KALISPELL	136
MISSOULA Lolo, Milltown	125
MILES CITY	133
WARM SPRINGS Galen	129

WATS CALL - MONTANA

All Montana telephones not served by Tie Lines . . . . . 151* + 1 + 7 Digit No.

NOTE: WATS calls cannot be made to any of the above Tie Line cities. Calls to these cities must be placed as a Tie Line call.

** Listen for dial tone before continuing to dial.*

STATE TELEPHONE DIALING INSTRUCTIONS

- HELENA USERS ONLY -

(All outside Helena users must prefix all dialing with "8")

TYPE OF CALL	*DIAL*

WATS CALL - NATIONWIDE

All U.S. telephones (excluding Alaska & Hawaii) . . . 171* + 1 + Area Code + 7 Digit No.

NOTE: This is a new service to become effective February 1, 1977. All Direct Distance Dial (DDD) long distance calls should be eliminated and placed as a Nationwide WATS call. Charges for the WATS calls are substantially less than the Telephone Company long distance rates. For more information refer to MAM Chapter 1-0900 or contact the Communications Division.

LONG DISTANCE CALL

Direct Distance Dial (DDD) . . . . . 9 + 1 + Area Code + 7 Digit No.
Operator Assisted . . . . . .9 + "Operator"

NOTE: With the implementation of the Nationwide WATS circuits, all Direct Distance Dial long distance calls should be eliminated and placed as Nationwide WATS calls to avoid unnecessary State expenditures. Operator assisted calls should be placed only when absolutely necessary as they are the most expensive type of long distance call.

CONFERENCE CALL (5 stations maximum) 449-2607
Contact the conference call operator well in advance of the desired time of the call.

TRANSFER INCOMING CALL . . . . . Depress switchhook once, listen for ring
Incoming calls from another State extension cannot be transferred.

INFORMATION

State numbers . . . . . 449-2511 or "Operator"
Helena local numbers . . . . . 9 + 411
Montana numbers (no charge) . . . . . 9 + 1 + 555-1212
Outside Montana numbers (no charge) . . . . . 9 + 1 + Area Code + 555-1212

** Listen for dial tone before continuing to dial*

FREQUENTLY CALLED NUMBERS

FREQUENTLY CALLED NUMBERS

tele·com·mu·ni·ca·tion \ˌtel-i-kə-ˌmyü-nə-ˈkā-shən\ *n* [ISV] 1: communications at a distance (as by cable, radio, telegraph, telephone, or television) 2: a science that deals with telecommunication ⟨study ~⟩ – usually used in plural.

❖ ❖ ❖

This year's cover depicts the two forms of telecommunications which play major roles in Montana State government. The simulated oscillogram at the bottom of the cover illustrates a voice print which symoblizes our oldest and still most commonly used form of communications. Along the left side, computer readable characters represent the data communications which have more recently become so vital to government operation.

With modern communications technology we can span the globe in the wink of an eye or probe the depths of space as we choose. The Big Sky Country still has her vast spaces and splendorous beauty, but we have shrunk her borders in time to the dialing of a telephone number. Our conversations can cross the State in an instant and volumes of data can be sent from Libby to Ekalaka in a few thousandths of a second. An important part of Montana's future lies in the continuing development and efficient use of modern telecommunications.
